### **DETAILED ACTION**

The following action is in response to the amendment filed for application 10/803,835 on November 22, 2005.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Frank McKenzie on December 20, 2005.

The application has been amended as follows:

In claim 15:

on line 16, "output shaft" has been replaced with --output--.

### ***Allowable Subject Matter***

Claims 1-4, and 6-20 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the multiple speed ratio transmission as claimed, and particularly including an input supported for rotation; an input shaft; a first power path continually driveably connected to the input shaft for transmitting power between the input shaft and a first layshaft, producing a first ratio of speed between the first layshaft and the speed of the input; a clutch for driveably connecting and disconnecting the input and the input shaft, and including the remaining structure of claims 1, 8, and 15, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roger L. Pang whose telephone number is 571-272-7096. The examiner can normally be reached on 5:30am to 4:00pm.
